

Southeast Geometry Seminar XXVI

February 26, 2017

Georgia Institute of Technology

Mozhgan (Nora) Entekhabi (Wichita State)

Radial limits for bounded PMC surfaces

Miyuki Koiso (Kyushu University)

Stability and bifurcation for surfaces with constant mean curvature

Vladimir Oliker (Emory University)

Freeform lenses, Jacobian equations, and SQM

Sungho Park (Hankuk University)

Circle foliated CMC surfaces in the three-sphere

Yuanzhen Shao (Purdue University)

Elliptic operators on manifolds with singularities
