

Southeast Geometry Seminar V

February 20, 2004 – Georgia Institute of Technology

Stelson Lecture: Gerhard Huisken (Albert-Einstein-Institut)
A Priori Estimates and Surgery Constructions for Mean Curvature Flow of Necks

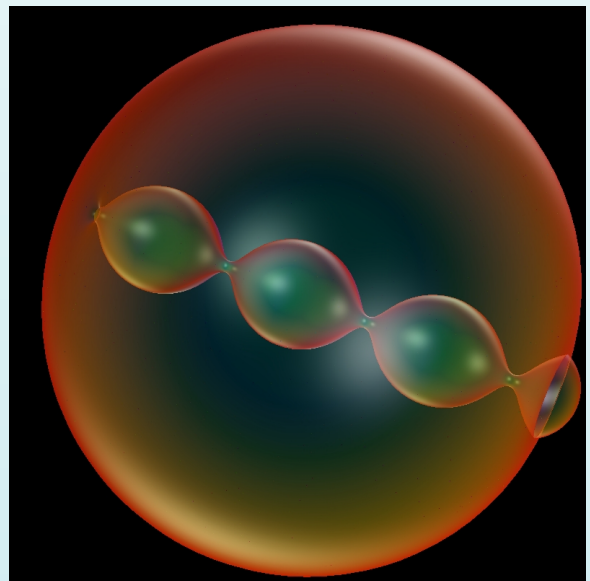

Plenary Lecture: Henry C. Wente (University of Toledo)
Elastica, Pendant Drops and Exotic Containers

Invited Speakers:

Malcolm Adams
(University of Georgia)

Margaret Symington
(Georgia Institute of Technology)

Gilbert Weinstein
(University of Alabama at Birmingham)

The Southeast Geometry Seminar (SGS) is a new semiannual series of one day events sponsored jointly by Emory University, Georgia Institute of Technology, University of Tennessee, Knoxville, and University of Alabama at Birmingham.

The organizers are Vladimir Oliker (Emory), John McCuan (GA Tech), Alex Freire (UTK), Gilbert Weinstein (UAB), and Sumio Yamada (UAB).

All lectures will take place in the Dupree College of Management, Technology Square, Room 101
